

AMENDMENTS TO THE CLAIMS

Please replace all previous versions of the claims with the following listing:

- 1-4. (Cancelled)
5. (Previously Presented) A method of supporting a self-sustained moving comprising the steps of:
 - inputting physical disability information and a destination from a communication terminal;
 - computing a guide route of a sidewalk according to the physical disability information based on the physical disability information inputted from the communication terminal and sidewalk data stored in a database, the sidewalk data correlating to the physical disability information;
 - combining the computed guide route with a map data stored in the database to output it as an electronic map; and
 - displaying the electronic map showing the guide route on the communication terminal,
 - wherein the step of computing the guide route includes preferentially computing the sidewalk that has been passed by a plurality of users having similar physical disability information.
6. (Original) The method of supporting a self-sustained moving according to claim 5, wherein the guide route of the electronic map displayed on the communication terminal is displayed to designate the sidewalk to be passed.
- 7-10. (Cancelled)
11. (New) The method of supporting a self-sustained moving according to claim 5, wherein the physical disability information includes use of a wheelchair.
